Product Description

The African kingdom of Wakanda has some of the most advanced technology in the world. Crucial to Wakanda's progress is access to rich deposits of the element Vibranium. The Kingdom of Wakanda terrain set for Marvel: Crisis Protocol contains beautifully crafted terrain miniatures from the nation of Wakanda to complement the miniatures game. In recent years, outsiders have made numerous attempts to plunder Wakanda's treasures. One potential weak point is the transporters used to transport the vibranium ore from the mines to the processing plants. As the raw material is unstable, the ore is stored for transport in compact triangular containers that can withstand even an unruly Hulk. Protecting these shipments is a top priority, and Wakanda's magnanimous defenders are ready to stand against all would-be thieves and villains. Attention! A base game of Marvel: Crisis Protocol is required to play!
