from **18,55 EUR**

Item no.: 379491
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

More than 350 cards, over 100 markers, five health counters - the basic game box for "Marvel Champions: The Card Game" provides you and your fellow players with everything you need to put a stop to the villains together. To ensure that your heroes can keep law and order in the Marvel Universe, you should first organise the box. With this Feldherr organiser made of sturdy plastic, you can do this with ease. The organiser fits into the original board game box of the base game for "Marvel Champions: The Card Game" by FFG. It offers space for all playing cards, markers and all other game material from the base game. Four large, individually removable plastic card holders take care of the player, encounter and overview cards. Two are reserved for the cards from the basic game. The other two card holders can be used for additional hero and scenario packs. More than 350 cards with sleeves (700 cards without protective sleeves) also fit in the insert. All cards fit in the card holders with protective sleeves (max. external dimensions with protective sleeve: 66 mm x 92 mm). Three individually removable plastic token holders help to sort the markers. The status cards, player life point counters and rogue life point counters also have their own tray. The game instructions and reference manual are on top. No assembly required. All parts are ready to use. Four card holders help you sort the player, encounter and overview cards. The cards from the basic game fill two card trays, both with and without protective sleeves. This leaves you with two more card holders in which you can store more than 350 cards with protective sleeves or 700 cards without protective sleeves from the expansions. You can get a better overview with the 10 coloured card separators from Gamegenic also included in the set. The small cards and markers are of course also provided for. Three token holders and a tray for storing the status cards, player life point counters and rogue life point counters help you to sort them. The card and token holders made of robust plastic can all be removed individually and distributed on the gaming table at the start of the game. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. All products are provided unpainted. Attention! Not suitable for children under 36 months.
