### Product Description

If you want to be a city planner and build Gloomhaven, you should always have your building materials in view and ready to hand at all times. To help you organise the many small game components of "Founders of Gloomhaven" clearly, we have created a storage solution made of high-quality foam that fits exactly into the original board game box. The organiser consists of two stackable, customised foam inserts. In the first foam insert with 32 compartments, you can sort all claim and delivery tokens as well as the bridge and gate tiles according to colour. There are also compartments for Influence and Money Tokens, Worker Pawns and the Active Player Token. The second insert has 15 compartments and allows you to safely store (sleeved) cards, tiles, trade stalls and all other small game components. The three card compartments have finger-wide cut-outs for easy removal. The inlays fit exactly into the original game box - nothing slips, nothing wobbles. We also supply a matching foam cover. Once you have sorted everything, place this on the top insert - nothing can fall out. The larger game components - game board, advisor board, etc. - can either be placed under the foam inserts in the game box or on top of the foam inserts. Then close the lid and nothing stands in the way of unadulterated gaming fun.
