from **18,35 EUR**

Item no.: 379488  
 shipping weight: 0.20 kg  
 Manufacturer: Feldherr

### Product Description

More fun hunting, less time sorting: The organiser for the basic game and the expansion. Fits in the original board game box. In Paleo, every day is a fight for survival. You make sure that everyone has enough to eat and that your tribe is not decimated by diseases and wild animals. To avoid premature extinction, you need the right strategy and leadership. If every cog meshes, every card is sorted correctly and your game material is always to hand, you will soon leave the Stone Age behind you and make history. Always at your side for thousands of years of tribal history: this Feldherr organiser set. You can neatly organise all the contents of the "Paleo" base game and the "A New Beginning" expansion in the sturdy plastic trays. At the start of the game, take the inserts directly out of the board game box and place them on the game table. This saves valuable time, spares your nerves and ensures your survival. - The organiser fits into the original board game box of the "Paleo" base game - The set offers space for all contents from the "Paleo" base game and the "A New Beginning" expansion. - The cards from the mini-expansions "The Terror Birds" and "The Initiation Rite" also fit here. - The original cardboard insert must be removed so that the token and card holders of the organiser fit into the game box. - All cards also fit into the card holders with protective sleeves (max. outer dimensions: approx. 59 mm x 94 mm). - Card dividers are included to sort the cards in the card holder. - The token holders are stackable. - The graveyard and workbench are stored next to the trays. The workbench can be stored assembled, the graveyard must be disassembled. The hut from the expansion can be stored assembled in the workbench. - Rulebooks, supplementary sheet, post tiles, base camp, wilderness, night and farm tableau are stored separately on top. - The lid of the basic game box protrudes approx. 1 cm. - Transport and tilt-proof - vertical storage possible. - No assembly required. All parts are ready for immediate use. So that you don't have to reinvent the wheel every time, we take care of the organisation in your game box. In the Feldherr token and card holders, you can store your game material compactly and clearly organised. So everything is where you need it. From now on, you can save yourself time-consuming pre-sorting at the start of each game. Each tile, card and dice has its own compartment. This also makes it much easier to sort them after the game. You can invest the time you save in the game instead. To start the game quickly, simply take the inserts out of the box and spread them out on the table. The battle for survival can begin. The set includes: - 3 plastic token holders, each with 6 compartments for tool and skull tokens. - 1 plastic token holder with 5 compartments for resource tokens (food, wood, stone, grain) and dice. - 3 plastic token holders, each with a compartment for expansion tokens (scythe, millstone, fences), obsidian tokens and secret tokens. - 2 plastic token holders, each with 2 compartments for tool tokens. - 1 plastic card holder with 5 compartments for tool tokens. 1 plastic card holder with 5 compartments for playing cards and victory point tokens. - 1 plastic card holder with 2 compartments for playing cards and damage tokens. - 2 plastic card holders with one compartment each for playing cards. - 30 plastic card dividers. - 1 foam cover. All cards also fit in the card holder with protective sleeves (max. outer dimensions: approx. 59 mm x 94 mm). The card dividers allow you to store your cards sorted by type. When all the trays are neatly organised, there is a large free area in the box. Here you can store the workbench and the graveyard from the basic game, as well as the hut from the expansion. You can transport the workbench assembled, but the graveyard must be disassembled. The hut from the expansion can be assembled, fitted into the workbench and stored there. The base camp, wilderness, night and farmyard boards and the night tile are stored separately on the plastic trays. The set is completed by the matching foam lid. This ensures that everything is held firmly in place and that no tiles can fall out of the token holders. You can place rulebooks and supplements on the lid. - thermoplastic - no assembly required - ready to play - 3D printed in Germany. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. All products are provided unpainted.
