MAXPLUS37 - MAXI PLUS bag for Siege of the Citadel - basic game

from **64,47 EUR**

Item no.: 377899
shipping weight: 3.10 kg
Manufacturer: Feldherr

Product Description

Foam-filled Feldherr bag for all miniatures and the game material for the base game of Siege of the Citadel. In "Siege of the Citadel" you lead loyal Doomtroopers into battle. Your goal: to stand up to the aliens and drive them back into the darkness of space. Of course, you should act in the best interests of your parent company. There's a lot at stake in the fight against alien invaders. Broken weapons or lost tokens should be avoided wherever possible. So we have packed a practical Feldherr MAXI PLUS bag with customised foam for you. Take this into the field instead of the original board game box and use it to transport all the contents of the "Siege of the Citadel" base game to the next mission, well protected and neatly stowed away. - Transport and storage option for contents of the "Siege of the Citadel" base game by Modiphius Entertainment. - 2 full-size and 4 half-size foam inlays provide space and protection for all plastic miniatures (Doomtroopers and enemies) and the entire game material (cards, tiles and tokens) of the base game. - All cards also fit with protective sleeves. - Rule book, Mission book, Dark Legion reference boards and Sector tiles are stored on the foam cover. The plastic stairs inlay does not fit and must be transported separately. The set contains: - 1 Feldherr MAXI PLUS bag - 1 full-size foam inlay for 25 miniatures (FSLQ050BO) - 1 half-size foam inlay for 15 miniatures (HSMEDO065BO) - 1 half-size foam inlay for 10 miniatures (HSMEFF060BO) - 1 full-size foam inlay for 25 miniatures (FSLQ050BO) - 1 half-size foam inlay for 15 miniatures (HSMEDO065BO) - 1 full-size foam inlay for 10 miniatures (HSMEFF060BO) - 1 full-size foam insert for player trays and game material (FS050I031BO) - 2 half-size foam inserts for cards and game material (HSMEQO050BO) - 1 foam mat, 4 mm, for height levelling - 1 foam lid Your bag or board game box without foam is a hostile place for miniatures. Broken parts, ugly scratches and colour abrasion threaten your painted miniatures. To protect your 45 miniatures, we have packed one full-size and two half-size foam inserts in the bag. From the Dark Legion Legionnaires, to the various Doomtroopers, to the giant Ezoghoul, every model gets a customised compartment. The customised cut prevents the figures from sliding around and bumping into each other during transport. This protects delicate details and your painted models are not affected by abrasion and scratches. So you only have to fear the darkness of space. Once the figures are safely packed, let's move on to your game material. One full-size insert and two half-size inserts have compartments for your game material. The card compartments have finger-thick cut-outs that make it easier to remove the cards (event cards, rank cards, etc.). Of course, all cards also fit with protective sleeves. You can store the player boards in the large compartment of the full-size insert. Distribute the tokens, dice and plastic pegs across the remaining compartments of the three inserts. Finally, cover everything with the matching foam cover. This way, the miniatures are protected from all sides by the soft foam. Store the Rule book, Mission book, Dark Legion reference boards and Sector tiles on the foam cover. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for writing materials, booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag comfortably as a shoulder bag thanks to the wear-resistant, detachable shoulder strap. Dimensions of the bag: - Internal dimensions: approx. 345 mm x 275 mm x 220 mm - External dimensions: approx. 390 mm x 330 mm x 230 mm The foam inserts have the following dimensions: - FSLQ050BO / FS050I031BO: 345 mm x 275 mm x 50 mm total height (40 mm usable height + 10 mm foam base) - HSMEDO065BO: 275 mm x 172 mm x 65 mm total height (55 mm usable height + 10 mm foam base) - HSMEFF060BO: 275 mm x 172 mm x 60 mm total height (50 mm usable height + 10 mm foam base) - HSMEQO050BO: 275 mm x 172 mm x 50 mm total height (40 mm usable height + 10 mm base) - high-quality, fine-pored foam - Made in Germany - chlorine-free and acid-free
