Product Description

Up to 14 Star Wars: Legion miniatures can be stored neatly and safely on this half-size foam tray. The two large compartments are ideal for the Taurback Riders and other similarly sized figures. The remaining 12 compartments can be filled with troopers and other infantry models or used to store accessories (e.g. markers and dice). The separate storage of the figures ensures that intricate details such as weapons and antennae are protected from damage. It also prevents the figures from sliding around and bumping into each other during transport. This means that even miniatures that have been painted over many hours are safe from abrasion and annoying scratches.
