from **10,30 EUR**

Item no.: 381291
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

Safely store and transport a Primaris Space Marines Impulsor Strumtransporter. Due to its manoeuvrability, the little brother of the Repulsor is particularly popular with the Vanguard Space Marines. The armoured transport vehicle is only lightly armed, but it is crucial that it gets its crew into the heart of enemy lines quickly and reliably. And to ensure that it is able to do this, you get the matching Feldherr half-size foam insert for the protected transport of your model here. A compartment tailored precisely to the Primaris Impulsor provides optimum protection for your miniature. This not only protects the sensitive parts, such as the aerial and machine gun, from damage. The colours and decals of the painted miniature also remain intact. In addition to the large compartment, there are 4 rectangular compartments in which you can store further Adeptus Astartes units. They are suitable for many infantry models on 25 mm or 32 mm bases, such as Infiltrators. - Each of the four compartments is 71 mm long x 35 mm wide x 110 mm deep. The half-size foam insert has the following dimensions: 275 mm x 172 mm x 120 mm total height (110 mm usable height + 10 mm base) - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany
