from **5,95 EUR**

Item no.: 374086  
shipping weight: 0.10 kg  
Manufacturer: Feldherr

### Product Description

Subdue the playing field with this inexpensive set of 10 for Dominion. In Dominion, a lot of stacks of cards are part of the game. All it takes is one wrong move to mix up the stacks. With this set of 10 flat card holders, you can place your kingdom cards clearly on the playing field, create order on the table and prevent the card stacks from getting mixed up. The set consists of ten black card deck holders, ideal for setting up all the kingdom cards you need to play clearly and stably on the playing field. Perfect for the 10-card stacks of kingdom and action cards for Dominion. The card holders were designed for cards without protective sleeves. The construction with 4 small side walls prevents the cards from slipping out of the tray. The table card holders are easy on your nerves and save you time. The cards are quickly to hand without you having to worry about knocking over the stacks. The black colour makes them stand out from other game elements and gives you a better overview of your kingdom cards. It also makes it easier for you to tidy up after the game. The innovative connector system allows you to connect several card holders together. This gives the stacks stability and prevents them from sliding around. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. Colours may vary. All products are provided unpainted.
