COBI-24555 - 77 PCS YOUNGTIMER /24555/ TRABANT 601 UNIVER.FEUER

from **10,33 EUR**

Item no.: 383963
shipping weight: 0.10 kg
Manufacturer: COBI

Product Description

The 1:35 scale fire engine model consists of 77 COBI building blocks and faithfully reproduces the characteristic shapes of the original Trabant 601. The iconic fire engine version has been designed in the colours red and white! The car has rotating wheels with tyres, which are perfect for moving the model during play. We have placed a blue brick on the roof, which corresponds to a warning light for emergency vehicles. We have dispensed with stickers in our sets! They have been replaced by durable decals that do not wear off even during intensive play. The model is a product for both discerning collectors and young classic car enthusiasts! Thanks to the simple and intuitive instructions, assembly is easy and won't cause anyone any problems! Trabant is a brand of car that was manufactured in the GDR at the Zwickau plant of VEB Sachsenring Automobilwerke. The 601 model was launched in 1964 and was produced until 1990. Trabant cars offered several technically interesting solutions. These included: Bodies made of a plastic material called Duroplast. It had a similar melting point to aluminium and increased the car's resistance to corrosion and pressure. Other notable solutions include a small two-stroke engine, large windows and a relatively spacious interior. The car reached a dizzying speed of just over 100 km/h. The red version of the car was used to assist the fire brigade and was fitted with a blue warning light. The Trabant can rightly be described as a cult car of the German Democratic Republic. To this day, it is a recognisable and extremely popular classic among car enthusiasts. It has also become an integral part of popular culture. - 77 high-quality elements- product under original TRABANT licence- manufactured in the EU by a company with over 20 years of tradition,- meet the safety standards for children's products,- fully compatible with clamping blocks of other brands,- blocks with imprints do not deform or fade during play or under the influence of temperature,- model construction scale 1:35 Model dimensions (L x W x H): 10 cm (3.9 inches) x 5.5 cm (2.2 inches) x 5 cm (2 inches) - Catalogue number: COBI-24555- Manufacturer: Cobi Factory SA- Size: 170x50x140- Length of model: 10 cm / 3.9?- Width: 5.5 cm / 2.2?- Height: 5 cm / 2?- Scale: 1:35- No. of parts: 77- Age group: 5+- Class: Trabant 601 Universal Fire Brigade
