Product Description

Panzerkampfwagen III is a German medium tank from the Second World War. It was the most dynamically developed model used in the army of the Third Reich. Many versions were produced between 1937 and 1943 and the successful chassis served as the basis for the production of other military vehicles. It was a very good design that was used until the end of the war. The crew consisted of 5 people. The tank took part in military operations on all European fronts and in North Africa. The miniature model made from COBI building blocks was designed on a scale of 1:72 and consists of 82 high-quality elements. When built, the tank is 7.5 cm long. Despite its compact size, the model retains all the important features of its historical role model! German markings are printed on the sides of the vehicle. Details such as service flaps, engine ventilation and the hatch are also printed on! The tank can be moved thanks to the mounted wheels. The turret of the tank is also movable and can be rotated. The model is perfect for a good start to your adventure with COBI building blocks. The Panzer III is also an interesting model and gadget for collectors. It takes up little space and easily finds its place on the desk at home, at work or on the bookshelf. If you are an advanced block designer, the model offers you very interesting elements. Express your passion through blocks and build history block by block!
