### Product Description

Even hellhounds would run away squealing when the demon machine is unleashed. The fire of the warp blazes behind its eyes, ectoplasm oozes from its fanged mouth and equally sharp paws and tentacles make every opponent tremble - if they even have the chance. As massive as the armoured monster of metal and flesh may be on the battlefield, the model of the Maulerfiend lives from its intricate details. To keep it that way, you get the matching Feldherr foam insert to protect your miniature. The model fits into the insert in both build variants - Maulerfiend and Forgefiend. A large, miniature-specific compartment houses the monster of your Chaos army. Thanks to the precise cut, the model stays in place during transport. The soft foam not only protects the delicate details, such as the tentacles or claws, but also the colours of the finished miniature remain intact. Three additional compartments can be filled with figures of your choice. They are suitable for Chaos Space Marines, for example. Details - High-quality, fine-pored foam - Made in Germany - Chlorine-free and acid-free Dimensions - 3 compartments each 54 mm long x 38 mm wide x 110 mm deep - Half-size foam insert: 275 mm x 172 mm x 120 mm total height (110 mm usable height + 10 mm base)
