from **37,10 EUR**

Item no.: 379572
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

The war that was supposed to end all other wars has thoroughly failed to achieve its goal. A power vacuum has been created in the east and the rulers of five nations are now vying for supremacy. In order for you to emerge victorious from the conflict, the machinery of war must function smoothly and everything must go according to plan. This also applies to your game material. If you want to subjugate your opponents, you should not aimlessly poke around in game material. To remedy this, we have designed a practical organiser for the Scythe base game. With this Feldherr organiser set made of sturdy plastic, you can create order in your box and on the gaming table. - The organiser offers space for all miniatures and the entire game material from the "Scythe" base game. - The set fits into the original base game box. - The elements of the organiser can be removed individually. - Each player receives their own player tray incl. insert. - All cards also fit with protective sleeves. - The rulebooks (multiplayer and automata) are included. The rulebooks (multiplayer and Automata), rules overview, player boards, nation boards, strength discs and the game board are placed between the two foam lids. - The second lid can be replaced by another game board, for example from an expansion. - Transport and tilt-proof - vertical storage possible - No assembly required. All parts are ready for immediate use. It's easy to start a war, but winning it is another matter. The road to victory can be a rocky one. To make sure you don't lose track of all the pieces, figures and game material, we have taken control of your game box. With the different inserts of the organiser, you not only create clear conditions, but also save a lot of time. Thanks to the clear structure, every item has its place and time-consuming pre-sorting is a relic of days gone by. Put your time into the game and show the other players who has the power. To get the game started quickly, take the trays out of the box and spread them out on the table. You're ready to start. The set consists of: - 5 plastic player trays with 5 compartments for player-specific game material such as mech miniatures, building markers, recruit markers, star markers and leader miniatures. - 5 plastic player tray inserts with 2 compartments for game material such as action markers, reputation markers, strength markers, development cubes and workers. - 1 tall plastic card holder with a compartment for encounter cards (green). - 1 medium-height plastic card holder with a compartment for factory cards (purple). - 2 flat plastic card holder inserts, each with a compartment for game cards such as "river crossing" overview cards and start-up cards. - 1 card holder with 3 plastic compartments for game material, as well as small game cards such as objective cards and very small game cards such as building bonus cards. - 1 card holder with 4 plastic compartments for small game cards such as combat cards (yellow), as well as for game material such as encounter markers and multiplier tokens. - 1 token holder with 4 plastic compartments for wooden markers (food, metal, wood, oil) - 1 token holder with 6 plastic compartments for coins. - 2 foam lids. All cards also fit with protective sleeves. The rulebooks (multiplayer and automata), rules overview, player boards, nation boards, strength discs and the game board are stored between the two foam lids. The second lid can be replaced by another game board, e.g. from an expansion. - thermoplastic - no assembly required - ready to play - 3D printed in Germany. As with all 3D printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. Properties of foam inserts: - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany
