Product Description

This half-size foam insert is divided into 7 compartments of different sizes. The large compartment in the centre is designed for a Daemonkin Venomcrawler. The customised cut ensures that the miniature remains securely in place during transport. The soft foam not only protects the many intricate details from damage, but also protects the colours of the painted model from abrasion and scratches. The compartment is also suitable for storing a Dreadnought. You also get 4 additional compartments for larger miniatures from your Legion, such as the Obliterators, Greater Possessed and the Master of Possession. The two small compartments are ideal for simple Chaos Space Marines on 32 mm bases.
