from **7,03 EUR**

Item no.: 381102
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

With Feldherr grid foam, you can easily create customised foam inserts. The pre-cut grid offers a suitable solution for a variety of items, such as photo cases, bulky objects or miniatures. The raster foam is quick and easy to use. The foam can be easily adapted to the individual shape of the goods to be packaged by separating out individual foam blocks. The perforated foam can be removed by hand without tools. This 90 mm high half-size insert has a pre-cut grid of 14 mm x 14 mm. It is ideal for sensitive transport goods such as tabletop miniatures, technical equipment and tools. The grid foam is fully perforated over the entire height. The base is available separately. To ensure that the packaged goods are optimally protected from below, we recommend using a 10 mm thick base, such as item HS010B. The insert is given additional stability by the all-round, approx. 15 mm wide edge. Details - Half-size grid foam insert: 275 mm x 172 mm x 90 mm total height - Pre-punched 14 mm x 14 mm grid - The foam is fully punched through - The base is available separately - The mat has a self-adhesive underside. Simply peel off the film and stick it to the matching base - done. No adhesive is required - Approx. 15 mm wide, all-round edge for additional stability - Chlorine-free and acid-free - Bulk density 23.0 kg/m³ (+/- 2.0) - Made in Germany
