Product Description

The Somua S-35 is a French medium tank from the Second World War. The tank had a very characteristic silhouette and an electrically rotating turret that housed the armament of the tank. It was equipped with a 47-millimetre gun, which was good for the time. It was one of the best French tanks at the outbreak of the Second World War! The miniature model made of COBI building blocks was designed in 1:72 scale and consists of 99 high-quality elements. When built, the tank is 9 cm long. Despite its compact size, the model retains all the important features of its historical role model! This vehicle is not to be confused with any other! There are prints with French markings on the sides of the turret. The ventilation grilles are also printed. The armoured turret is movable and can be rotated. The model is perfect for a good start to your adventure with COBI building bricks. The Somua S-35 is also an interesting model and gadget for collectors. It takes up little space and easily finds its place on the desk at home, at work or on the bookshelf. If you are an advanced block designer, the model offers you very interesting elements. Express your passion through blocks and build history block by block!
