Product Description

The kingdom needs a new master builder and you are among those vying for the prestigious post. Recruit characters and cleverly use their unique skills to outwit your rivals. Only the most majestic metropolis will earn you the coveted title of Master Builder!

In Citadels, you compete to build the most impressive medieval city in the kingdom. To do this, you use many different characters who interact with each other. Each round, you choose a character face down who has a special ability. When it is your turn, you use this ability, construct various buildings and manage your income. Depending on which character you have chosen, you get bonuses or can, for example, bewitch, steal from or blackmail your fellow players. But be careful: with special buildings they can defend themselves - or dish it out as well. To win, you have to outsmart your fellow players and score as many victory points as possible by constructing buildings.

This revised version of the characterful card game Ohne Furcht und Adel (nominated for the Spiel des Jahres 2000) is completely plastic-free as a complete box in medium format. Thanks to 27 varied character cards and 87 building cards, this version is suitable for enthusiasts and newcomers alike. 27 small character memory cards round off the game experience.

Caution: Not suitable for children under 3 years due to small parts which may be swallowed, risk of suffocation!
