Product Description

The Bastion 100+ XL is a very compact and solid deck box that safely protects 100+ double-sleeved cards in extra thick inner sleeves. Thanks to the transparent material and the intelligent positioning of the closing flaps, the top or commander card is fully visible from the outside without having to open the box. The innovative, secure locking mechanism protects the cards while still allowing easy access. The Bastion consists of 2 symmetrical parts that can easily be transformed into a card stack and discard holder. The box is perfect for a variety of trading card games. Thanks to the modular design, the Bastion fits perfectly with other Gamegenic products. It also comes with a writable sticker for personalisation. The Bastion is available in 10 different colours, including an exclusive black/clear mix & match version.
