Product Description

With conical compartments for storing 20 small Descent miniatures. This Feldherr half-size foam insert for 20 Descent miniatures is ideal for those who want to keep an eye on their heroes and monsters at all times. Our insert consists of 20 conical compartments of different sizes. It is divided into eight compartments measuring 49 mm x 30 mm, a further eight measuring 39 / 30 mm next to them and 4 slightly smaller ones in the centre measuring 37 / 30 mm. The diameter of a base for small figures is generally in the region of 25 mm. Accordingly, we have chosen the height of the compartment so that your heroes and monsters can be placed horizontally. The cave spiders, on the other hand, also fit upright. This means you can quickly keep an eye on all your miniatures. Thanks to the 10 mm thick base, the tray has a total height of 35 mm. The conical shape of the compartments ensures that sword- and club-wielding figures in particular fit in perfectly. This prevents figure parts from bending during transport or storage. The half-size foam insert can of course be used with other Feldherr products such as the magnetic boxes, MAXI bags or transporters. - The foam insert has the following dimensions: 275 mm x 172 mm x 35 mm total height. The individual compartments have the following dimensions: - 8 compartments with 49 mm x 30 mm x 25 mm height - 8 compartments with 39 mm x 30 mm x 25 mm height - 4 compartments with 37 mm x 30 mm x 25 mm height - Made in Germany - high-quality, fine-pored foam - chlorine-free and acid-free
