shipping weight: 0.70 kg
Manufacturer: COBI

Product Description

On 9 February 1969, the most famous and one of the largest long-haul passenger aircraft took to the skies for the first time. The Boeing 747, also known as the "Jumbo Jet", was designed by the American company Boeing in the 1960s and entered commercial service in 1970. Its unmistakable appearance with the main passenger deck on top of the fuselage is its characteristic feature. The Boeing 747 is one of the largest passenger aircraft in the world and, in a typical configuration, can accommodate over 600 passengers. Originally it was mainly used on intercontinental routes, but today it is used by many airlines around the world. The last Boeing 747 was produced on 6 December 2022. In 54 years, a total of 1,574 jumbo jets were produced in various designs! COBI's clamp-on building block model goes back to the roots of the aviation legend. A detailed 1:144 scale model is created from over a thousand elements, the design of which refers to the historic first flight of the famous jet. With specially designed elements and high-quality prints, the model will not only delight block modellers, but also civil aviation enthusiasts of all ages! Once built, the aircraft is 46 cm long and has a wingspan of 42 cm! The engines contain movable turbines that can be moved. Build the history of civil aviation brick by brick! - 1.051 high quality elements, - manufactured in the EU by a company with over 20 years of tradition, - meet the safety standards for children's products, - fully compatible with other brands of clamp building blocks, - blocks with imprints do not deform or fade during play or under the influence of temperature, - clear and intuitive instructions based on drawings and symbols, - movable elements, Model dimensions (L x W x H): 46 cm (18.1 inches) x 42 cm (16.54 inches) x 15 cm (5.91 inches)
