Product Description

Air Force One is the codename for the US Air Force aircraft that transports the incumbent President of the United States. The Boeing VC-25 is a military version of the Boeing 747 airliner that has been heavily modified for presidential transport and is often used by the United States Air Force (USAF) as Air Force One. The crew of Air Force One consists of experienced pilots and cabin crew who are trained to operate this unique aircraft. The aircraft is suitable for long-haul flights and ensures that the President of the United States can travel quickly and safely internationally and within the country. The clamp-on building block model of the world's most important jumbo jet consists of 1,087 elements. The presidential aeroplane was developed on a scale of 1:144. Once built, the aircraft is 46 cm long and has a wingspan of 42 cm! The engines contain movable turbines that can be moved. The very characteristic design with USAF markings and US national symbols has been reproduced in detail with high-quality prints. You won't find any stickers in this set! With specially designed elements, the model will appeal not only to brick-building enthusiasts but also to aviation fans of all ages! Build your own Air Force One and feel the prestige of the President of the United States of America! - 1.087 high-quality elements, - manufactured in the EU by a company with over 20 years of tradition, - meet the safety standards for children's products, - fully compatible with other brands of clamp building blocks, - blocks with imprints do not deform or fade during play or under the influence of temperature, - clear and intuitive instructions based on drawings and symbols, - movable elements, Model dimensions (L x W x H): 46 cm (18.1 inches) x 42 cm (16.54 inches) x 15 cm (5.91 inches) - Catalogue number: COBI-26610-Manufacturer: Cobi Factory SA-Size: 45 cm x 7 cm x 32 cm-Length of model: 46 cm / 18.11"- Wingspan: 42 cm / 16.54"- Height: 15 cm / 5.91"- Scale: 1:144- Number of parts: 1087-Age group: 9+
