Product Description

The Cessna 172 Skyhawk is a single-engine, four-seater tourist and training aircraft manufactured by the Cessna Aircraft Company. It was introduced in 1956 and is one of the most popular aircraft in aviation history. Skyhawk is often used for pilot training, tourist flights and observation missions. Cessna is a high-wing aircraft with a metal structure and excellent flight characteristics. The aircraft is easy to fly and maintain. The Cessna 172 is still produced in many versions and is widely used worldwide in both civilian and military applications. We have designed the 1:48 scale clamp-on model from 162 elements with great attention to detail. Its size fits perfectly into our collection of modern aeroplanes. The model has rotating wheels and a movable propeller. There are imprints on the building blocks. No stickers! Especially for this set, we have designed a new brick shape - a vertical stabiliser - so that our model imitates its original as realistically as possible. Thanks to the clear paper instructions, assembly of the set is simple and straightforward. The Cessna 172 Skyhawk is a must-have model for civil aviation enthusiasts. Take your passion home with you and build it up! - 162 high-quality elements- product under the original CESSNA licence- manufactured in the EU by a company with over 20 years of tradition,- meet the safety standards for children's products,- fully compatible with clamp building blocks from other brands,- blocks with imprints do not deform or fade during play or under the influence of temperature,- model building scale 1:48 Model dimensions (L x W x H): 17.5 cm (6.9 inches) x 23.5 cm (9.3 inches) x 6.5 cm (2.6 inches)- Catalogue number: COBI-26622- Manufacturer: Cobi Factory SA- Size: 27,5 cm x 6 cm x 18 cm- Length of model: 17,5 cm / 6.9?- Wingspan: 23.5 cm / 9.3?- Height: 6.5 cm / 2.6?- Scale: 1:48- Number of parts: 162- Age group: 5+
