Product Description

The Iron Throne is not comfortable, and in many ways it is not. Crafted by Aegon I Targaryen, the first king of the Seven Kingdoms, from thousands of swords of the vanquished, this monstrosity is littered with pointed and sharp edges of cold metal. However, the Iron Throne is not just literally uncomfortable, as it is the seat of the King of the Andals and the first humans - the symbol of rule over the Seven Kingdoms. Unlike the rulers, you can sit back and relax, because with this foam inlay specially made for the Iron Throne from the tabletop game "A Song of Ice & Fire", this imposing miniature is in absolutely safe hands. The foam mat is divided into 4 compartments. The large compartment was customised for the Kickstarter exclusive miniature of the Iron Throne. It is safely wrapped in foam and does not slip around during transport. The jagged edges remain spiky and when the mighty throne is finished painting, the colours are optimally protected against abrasion and chipping. There is an extra compartment for the platform on which the throne stands. The additional 2 compartments can be filled with miniatures of your choice, such as Mounted Brynden Tully and The Mountain That Rides. Details- high-quality, fine-pored foam - Made in Germany- chlorine-free and acid-free Dimensions- 2 free compartments each 88 mm long x 58 mm wide x 125 mm deep- foam insert: 275 mm x 172 mm x 135 mm total height (125 mm usable height + 10 mm base)
