## 00006 - Basic construction kit

from **69,55 EUR**

Item no.: 384079  
shipping weight: 2.00 kg  
Manufacturer: eitech

### Product Description

Our basic construction kit is the perfect starter project for young hobbyists. Eight different models can be constructed from more than 270 components. Each step is described in detail in the illustrated instructions. The right tools are included in the set. Children can playfully create everyday objects (ladder, seesaw, merry-go-round, handcart/buggy) and different vehicles (lorry, single-seater, two-seater). They learn about various mechanical functions and can then use their constructions in creative play. The basic construction set has been awarded the "spiel gut" award and is suitable as an educationally valuable learning toy to promote fine motor skills, patience, creativity and technical skills.
