Product Description

The high-performance transporter transports the Empire's elite troops to wherever the battle rages most fiercely and terrifies the rebels across the galaxy. So that you don't have to worry about your TIE Reaper after the battle, we have the right foam insert for your fleet. This consists of 11 compartments. The TIE Reaper has a safe place in a compartment tailored exactly to it. There is also a compartment for the new medium-size bases and two for the manoeuvring wheels. We have also designed these so that the small bases also fit in here. As the expansion is equipped with components for both the first and second editions to make it easier to get started with the X-Wing 2nd Edition, we have designed the compartments of the foam system accordingly. The base and manoeuvre wheel from both editions therefore fit into the corresponding compartments. Additional miniatures of your Imperial fleet, e.g. the TIE Striker or TIE Bomber, can be stored in seven additional compartments. For game accessories, such as playing cards and markers, we recommend the matching foam insert for Star Wars X-WING accessories (HS045XW01).
