Product Description

When they were still among the living, one of them was a vile, power-mad swindler who was brought to the realm of the dead by Nagash himself shortly before his ascension to the throne. The other, as a wise mage king, came into conflict with the Great Necromancer and now helps the Nighthaunt to crushing victories with his extensive knowledge of amethyst magic. Whether it's the mighty Reikenor on the Nightmare Kvallaron or the hunchbacked King Kurdoss Valentian, both miniatures impress with their usual GamesWorkshop quality and many intricate details. To keep it that way, we have the right half-size foam inlay for you and your figures. The inlay is divided into 2 customised compartments that are precisely tailored to the individual miniatures. This ensures that Kyallaron's wings remain intact during transport and that the Craven King's flag continues to fly. But proper storage is not only crucial for the protection of sensitive parts. The high-quality, chlorine- and acid-free foam and the precisely cut compartments ensure that models painted with hours of precision work will retain their colours in the future. Details- high-quality, fine-pored foam - Made in Germany- chlorine-free and acid-free Dimensions- foam insert: 275 mm x 172 mm x 145 mm total height (135 mm usable height + 10 mm foam base)
