### Product Description

Other Kharadron Overlords have sought their fortune in Shadeshire before them. But instead of the fabled riches of Katophranes, they only found misfortune and death. But no one was as tough and well-equipped as Thundrik and his companions. To get your models to the Mirrored City unharmed and ready to fly, you need the right means of transport. You're in luck, because here's the right half-size foam inlay especially for Thundrik's troop. The inlay is divided into 10 compartments so that miniatures and game material can be neatly stowed away. 5 of these are customised for "Thundrik's Profit Hunters". Bjorgen Thundrik, Volltreffer Lund, Enrik Eisenhagel, Garodd Alensen and Khazgan Drakkspießer are safely embedded in soft foam. This ensures that the Skypike remains sharp and that the Skyvessel can still fly after transport. The precise cut guarantees that the figures do not slide around. Painted models are spared scratches and chipped paint. An additional compartment is reserved under the figures for the power and mission cards. It has a finger-wide recess to make it easier to get the cards out. Up to 40 cards can fit in here, even with sleeves. Dice and markers can be sorted into the remaining four compartments. So everything is neatly and securely stowed away. And the five airmen are always ready for their next opponent who comes between them and the treasures of the Katophranes. Details - high-quality, fine-pored foam - Made in Germany - chlorine-free and acid-free Dimensions - foam insert: 275 mm x 172 mm x 50 mm total height (40 mm usable height + 10 mm base)
