Product Description

The miniatures from Kingdom Death: Monster 1.5 + 1.6 are some of the most unusual and crazy in the entire board game universe. Of course, exclusive models such as Phoenix, Sunstalker or Dragon King are also very valuable - and in a few years may even be a little treasure. So our recommendation: guard your monsters like the apple of your eye! With our complete set for KDM 1.6 Wave 1 & 2, we offer you a customised solution for storing the basic game, the 1.6 Update Pack and all twelve Wave 2 expansions. The inlays for the large Phoenix, Spidicules, Sunstalker and Dragon King miniatures are in two parts. They each consist of a lower tray with a base and an upper tray without a base. As soon as you have placed the models in the lower inserts, place the upper, precisely cut inserts on top. This way, your large monsters are well packed all round. Information- Keep everything organised: All monsters from Wave 1 & 2 can be stored in 16 high-quality foam inserts. Large figures such as Spidicules and Phoenix have their own personalised inlays just for them. You can sort the many small and medium-sized models (and some pin-ups) into the other inlays as you wish. This means you always have Slenderman, Old Survivor, Kingsman & Co. in view. - Makes it easier to set up the game: Thanks to the new overview, you can always find the figure you need. Your game set-up is done in no time at all. - Offers comprehensive protection: Our fine-pored inlays provide filigree models such as Spidicules and Phoenix with the best possible protection against parts breaking off. The spider won't have a leg bent, the proud bird can still spread its magnificent wings the day after tomorrow. - Reliably prevents scratches: If you have painted your models, our velvety-soft foam is the best insurance against scratches or chipped paint. Your monsters will shine in the spotlight and remain in top condition for posterity. - Enables space-saving storage: Our inlays are stackable and therefore easy to store. Once you have sorted the minis, put everything on the shelf - all traces of the game night are gone and everything is tidy again.
