Product Description

The horror never ends. In addition to the basic game, the horrors of three expansions await you. With so much game material, you can lose track and despair at the lack of space in the board game box. Even in the third edition, the threat of the "Great Old Ones" has lost none of its fascination. With this foam-filled Feldherr storage box LBBG250, you can store all the game contents in one place and transport everything easily. - Everything fits in just one box - The Feldherr storage box set offers space for the entire game contents of the third edition base game and the three expansions Dark Tides, Secrets of the Order and Midnight. - All cards also fit in protective sleeves. All cards also fit with protective sleeves. The set contains: - 1 Feldherr storage box LBBG250- 2 foam inserts with 8 compartments each + 2 foam inserts with 15 compartments each (AFMEJH080BO + CUMEJI040BO)- 1 foam insert with 9 compartments for playing cards (AFEE060BO)- 2 foam lids To keep all the game material neatly organised, we have supplied the storage box with three matching foam inserts and two foam inserts. The two 80 mm high foam inserts are each divided into a large compartment for the foam insert and 7 further compartments for storing the game components. The two foam inserts, each with 15 compartments, are used for sorting the markers, dice, feet and other small game material. The inserts can be removed individually thanks to the glued base. This means you can place the inserts and their contents next to the game board and have the game material to hand. The 40 mm high inserts leave enough space in the compartment to store larger game components such as scenario and investigator sheets, game board components and event card holders in individual parts. The two inserts each have 5 compartments in which you can store cards in a clearly organised manner. You can organise even more cards in the additional insert. This allows you to neatly organise large cards such as event and anomaly cards and small cards such as monster and condition cards. Of course, all cards with protective sleeves fit into the compartments. You can sort any remaining game material such as investigator or anomaly markers into the unused compartments. The set is rounded off with matching foam lids. This keeps everything in its place when the box is turned upside down. You can store the game instructions on the foam cover. The Feldherr storage box LBBG250 is made of coated, double-walled cardboard in a subtle Feldherr design. The lightweight material and carrying handle make it ideal for the safe storage and easy transport of your collection. This keeps everything neatly and safely stowed away. No marker gets lost. Cards and markers are quickly to hand and you save a lot of time and nerves when setting up your game. Dimensions of the LBBG250 storage box: - Inside: 300 mm x 300 mm x 250 mm- Outside: 320 mm x 320 mm x 260 mm The foam inserts have the following dimensions: - AFMEJH080BO: 285 mm x 285 mm x 80 mm total height (70 mm usable height + 10 mm foam base). - AFEE060BO: 285 mm x 285 mm x 60 mm total height (70 mm usable height + 10 mm foam base). - CUMEJI040BO: 208 mm x 183 mm x 40 mm total height (30 mm usable height + 10 mm foam base). - high-quality, fine-pored foam - Made in Germany - chlorine-free and acid-free
