Product Description

The adventurous journey through Middle-earth that Bilbo, Gimli and the other heroes embarked on in the basic game continues with the "Dark Paths" expansion. In addition to new heroes, challenges and enemies, you also get fantastic miniatures and more game material. To ensure that you don't lose track of the wealth of accessories and the wonderful miniatures remain intact, you get the Feldherr storage box for the basic game and the expansion here. The box offers space for all 61 miniatures and the complete game accessories from the "The Lord of the Rings: Journey through Middle-earth" basic game and the "Dark Paths" expansion. The battle board parts of the base game and the three booklets are stored on the foam lid. Has additional compartments for the figures from the "Rogues of Eriador" figure pack. Alternatively, you can also use the two foam sets as inserts for your board game boxes. Two inserts are provided for the miniatures. Bilbo, Aragorn, Gandalf and the other heroes have their own customised compartments, just like the figures of your enemies. This means that the detailed miniatures remain securely in place even when transporting the box. The soft foam ensures that fine parts, such as the orcs' bows or Gandalf's staff, are protected from damage. If you paint your figures, you can also make sure that the colours are protected from scratches and abrasion. All 61 figures can be stored neatly here and there are still compartments left over that you can use for sorting tokens or for the figures from the "Villains of Eriador" figure pack. Insert numbers three and four take care of the remaining tokens, the game board components and the large number of playing cards. Six compartments offer enough space to neatly store all the small cards, such as the favour and terrain cards. The compartments have finger-wide cut-outs to make it easier for you to remove the stacks. All cards also fit with sleeves. The two large compartments are used to store the travel board components, larger markers and the hero cards. You can use the remaining compartments to store the markers, standees or the 3 rogues of Eriador. Two foam lids round things off. On the one hand, this serves to protect the game board pieces, on the other hand, you can also divide the sets between your board game boxes. The cover holds the game board parts of the basic game and the booklets. The Feldherr storage box LBBG250 is made of coated, double-walled cardboard in a subtle Feldherr design. The lightweight material and carrying handle make it ideal for safe storage and easy transport of your collection. The miniatures are securely packed, the game material is neatly stowed away and the contents of your box are optimally protected even on the bumpiest of journeys to the next adventure.
