Product Description

The horror continues - with the epilogue in the Aftermath expansion and the Void Seeders from the expansion of the same name. And a cat, of all things, brings the Carnomorphs onto the ship. Enough material for more gruesome hours in the world of Nemesis. To make sure that you don't lose track of everything and that the marvellous miniatures remain intact, you can get the Feldherr storage box for all 3 expansions from the second wave of the Nemesis Kickstarter campaign here. The box offers space for all 45 miniatures and the complete game accessories from the Nemesis expansions Carnomorphs, Aftermath & Void Seeders and the Terrain Expansion (Wave 2 of the Kickstarter campaign). Larger cardboard parts (Shuttle Board, Character Boards, Void Seeder Board, Carnomorph Board and the Room Tiles) are stored on the foam lid. Three inlays are provided for the miniatures. From the Lairs and Catonaut to the Despoiler, each figure is allocated a suitable compartment. The finely detailed miniatures are completely surrounded by foam and remain in place even when travelling thanks to the precise fit. This means that even the roughest transport cannot harm the delicate parts. If you paint your miniatures, you can also be sure that the colours will be protected from scratches and abrasion. There are a total of 8 compartments for sorting the tokens. The fourth insert has space for the cards. There are a total of eight card compartments, two for the small cards, such as the item cards, and six compartments for the larger cards, such as the objective cards. The compartments have finger-wide cut-outs to make it easier to remove the stacks and are of course also suitable for cards with sleeves. The large compartment in the centre holds the Butcher miniature in pride of place. A matching foam cover provides all-round protection to ensure that the miniatures in the upper insert are also completely safe. The cover holds the larger cardboard parts: the Shuttle Board, the Character Boards, the Void Seeder Board, Carnomorph Board and the Room Tiles. All of this is well stowed away in the high-quality LBBG storage box. This is made of coated, double-walled cardboard in a subtle Feldherr design. The lightweight material and carrying handle make it ideal for safe storage and easy transport of your game. The miniatures are securely packed, the game material is neatly stowed away and the contents of your box are optimally protected even on the bumpiest roads to the next adventure.
