from **57,32 EUR**

Item no.: 377089
shipping weight: 0.50 kg
Manufacturer: Feldherr

Product Description

With the DSLB150 storage box and the matching foam inserts for 108 speedsters, Feldherr offers your 1:64 scale vehicles a safe parking space. The foam inserts each have nine compartments in which you can store your models safely and neatly. The fine-pored foam reliably protects your cars from damage - the paintwork is spared from scratches and sensitive parts such as mirrors remain undamaged. Eight inserts are suitable for flat vehicles such as coupés or racing cars. The four additional inserts are ideal for storing tall models such as vans or minibuses. The DSLB150 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly stable. Your model cars can be stored safely and protected from dust and transported effortlessly with the plastic carrying handle. The matching foam lid completes the set. Place this on top of the upper inlays - so no car can fall out during transport.
