Product Description

If you haven't been bitten by the bug for the Mirrored City of Shadespire after the first season, you won't be able to resist the magic of Warhammer Underworlds after the second instalment, 'Nightvault'. And for those who want to keep their warrior models safe afterwards, there's now a great all-in-one pack with all the foam inserts for the 16 squads, spread across two stock boxes. From Averon Stormfather and Sanson Long-Runner to Zarbag's scurrying goblin flock, each troop gets a customised Feldherr foam insert. The compartments are individually tailored to the miniatures. This means that the models are well protected in the soft foam. Sensitive details are thus protected from damage. The customised cut ensures that the figures do not slide around during transport. Painted warrior models are spared scratches and chipped paint. An additional compartment is reserved under each figure for the power and mission cards. It has a finger-wide recess to make it easier to get the cards out. Up to 40 cards fit in here, including sleeves, of course. Deck boxes also fit here. Dice and markers can be sorted into the remaining four compartments. As you can never have enough dice, there is also a mat for up to 77 dice on top. Finally, the foam lids supplied ensure that your figures are securely packed all round and survive transport to the Mirrored City undamaged. The storage boxes are made of coated, double-wall cardboard. This makes them not only lightweight, but also particularly robust and therefore ideal for storing your miniatures safely and protected from dust. The plastic carrying handle makes it easy to transport your warriors.
