from **62,33 EUR**

Item no.: 377337
shipping weight: 0.50 kg
Manufacturer: Feldherr

Product Description

What kind of world would it be without villains? Peaceful, full of gruelling boredom. In Disney Villainous you take on the role of an iconic Disney villain and show the world why the world needs evil and how much fun it is to be the villain. The best way to travel is in style, as Cruella Deville already knew. But because style isn't everything, we've filled this storage box with matching Feldherr foam inserts to ensure that the base game and expansions arrive at the gaming table undamaged and that you can always keep track of everything. The set offers space for all miniatures and the entire game material from the "Disney Villainous" base game and five expansions ("Evil Never Sleeps", "Evil to the Core", "Evil Has Style" or "Evil Machinations", as well as a future expansion). All cards also fit with protective sleeves. Alternatively, up to three further expansions can be accommodated. Game instructions, game aids and the evil handbooks are transported separately in the box. For the well-being of your miniatures, we have packed three foam inserts, each with ten compartments, into the storage box. Each figure has its own, precisely fitting compartment. This ensures that the miniatures do not slide around or bump into each other during transport. The colours of painted figures are also protected from abrasion and scratches. The cards and game material are stored in a total of seven foam inserts. This means you have two inserts with three card compartments for the basic game and one for each expansion. This is a card tray for each villain deck, consisting of a fate card deck and a villain card deck. To make it easier for you to remove the individual stacks, the card slots have finger-thick cut-outs. Of course, all cards also fit into the compartments with protective sleeves. You can sort the chips into the remaining compartments. If further expansions are released, you will be well equipped with this set. In addition to a 5th expansion, you can store up to three additional expansions in the storage box. The only difference here is that the card stacks cannot be sorted by villain. We have provided the full-size insert for the numerous player boards. Simply store the boards in the large compartment. The other compartments can be used for other game material. The foam lid supplied closes the whole thing and ensures that your figures are safely packed all round. The foam lid is where you keep the game instructions, game aids and the villain manuals. The DSLB150 storage box is made of coated, double-walled cardboard and is therefore very light and also particularly stable. Your miniatures and game material can be stored safely and protected from dust and transported effortlessly with the plastic carrying handle.
