Product Description

The new edition of HeroQuest was accompanied by an exciting crowdfunding campaign. In addition to the base game and the expansions "Kellar's Keep" and "Return of the Witch Lord", the Mythic Tier shines with exclusive additional content. Because the original boxes look chic on the shelf and you want to protect them, we provide you with the matching Feldherr storage box as an alternative for transporting your game content. There is also space for the strictly limited "Commander of the Guardian Knights" mini-expansion. A total of 10 foam inserts ensure that all miniatures, terrain pieces, furniture and your game material are clearly organised and well protected. It doesn't matter whether it's a door from the basic game, one of the hazards from the expansions or a bonus from the crowdfunding campaign, every miniature of your "Mythic Tier" is given a custom-fit compartment. The soft foam not only protects the sensitive parts of your figures. The colours of painted miniatures are just as safe from abrasion and scratches here. You sort your game material into the remaining compartments. It is up to you how exactly you want to organise them. Your playing cards have special card compartments with finger-thick cut-outs to make it easier for you to remove the cards. Of course, the cards also fit into the compartments with protective sleeves. If you call them your own, you still have space to store the miniatures and cards from the strictly limited "Commanders of the Guardian Knights" mini-expansion in the free compartments, otherwise you can use the free compartments for future releases. The included foam cover completes the set. This ensures that your precious miniatures and game material are protected from all sides by foam. You can place all larger game components such as the rulebook, screen, game board, quest books, character sheet pad and oversized cardboard pieces on the lid. The DSLB150 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly sturdy. Your miniatures and game material can be stored safely and protected from dust and transported effortlessly with the plastic carrying handle.
