As cats are revered as sacred animals in Egypt, the Kickstarter-exclusive cat figurines can also be safely stowed away in the inlays. After all, we don't want to invoke the wrath of the gods. Whether it's the winged Horus, the cunning Bastet or a simple warrior. Every figure has the right compartment. Surrounded by soft, fine-pored foam, your figures are optimally protected during transport. You don't need to worry about scratches and chipped paint on your painted figures or broken details on your miniatures. An insert with separate card compartments has been included in the set for sorting the playing cards. The finger-wide recess makes it easier for you to remove stacks of cards. Of course, your cards will also fit with a protective cover. You can distribute the small game material such as tokens and bases over the free compartments as you wish. Finally, secure the top of the inserts with the foam cover provided. Surrounded by protective foam, your figures cannot fall out or hit the lid of the box. The Pantheon booklet, God Dashboards and Merged God Dashboards are stored on the foam lid. The Feldherr MAXI bag is made of particularly hard-wearing material. Padded side panels and a reinforced base ensure that the miniatures are also optimally protected during transport by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store writing utensils and other small items, for example.
