Product Description

With the aim of seeing the empire burn, the troops led by Magnus the Red go into battle. We have put together this MAXI bag with matching foam inserts so that you can bring the Primarch and his warriors safely to your next game night. The foam insert for Magnus the Red is tailored precisely to the Thousand Sons army commander. The countless details of the marvellous figure, such as Magnus' blade and the huge wings, are thus optimally protected against damage. The fine-pored foam also reliably protects the surface of the Daemon Primarch of Tzeentch. So when you have painted the model, you can be sure that the paint you have applied will remain intact. In addition to the large compartment for Magnus the Red, the insert has 4 further, smaller compartments. These are ideal for storing other figures from the Thousand Sons command staff, such as Scarab Occult Terminators or Exalted Sorcerers. The 2 inserts for the standard warriors each have 10 compartments. The total of 20 compartments provide space for additional loyal warriors of the Tzeentch, e.g. Rubric Marines or the Aspiring Sorcerer. This means you always have your troops in view and ready to hand at all times. The stackable inserts naturally fit exactly into the robust MAXI bag. This is made of particularly hard-wearing material. Padded side sections and a reinforced base also ensure that the contents are optimally protected during transport by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the wear-resistant, detachable shoulder strap. The set is rounded off by the matching foam lid. This ensures that none of the thousand sons can fall out of the inserts.
