## MAX56BO - MAXI bag for HeroQuest

from **63,42 EUR**

Item no.: 377981  
shipping weight: 1.00 kg  
Manufacturer: Feldherr

### Product Description

For over 30 years, you've been running to your friends with the rattling box under your arm to go on monster and treasure hunts together? And you haven't really got used to the fact that the box is more cluttered than the dungeon? Lucky for you, because we now have this convenient MAXI bag, filled with matching foam inserts for safe transport of your beloved classic board game. Provides space for all miniatures and the entire game material of the HeroQuest base game, plus at least 21 free compartments for additional miniatures and accessories. The set includes two full-size inserts for storing the hero and monster miniatures. Precisely fitting compartments ensure that nothing happens to your collectibles while travelling. The skeletons' scythes are just as safe from damage here as the goblins' swords. You don't need to worry about painted models either, as they are neatly separated from each other and completely surrounded by foam in their compartments. The colours remain intact and free from scratches. The 21 doors are sorted on the second full-size tray. The remaining 11 compartments are available for other miniatures. If you prefer to have more space for miniatures from the HeroQuest expansions and do not need to store the doors individually, the doors can also be stored in a larger free compartment of the half-size inserts. 4 half-size inserts take care of the rest of the game material, such as the furniture pieces, markers, dice and cards. The gargoyle, just like the barbarian, also takes up a little more space. The two miniatures are therefore allocated larger compartments. There are still 10 compartments left for free use, which can be filled with miniatures and accessories from the expansions. Finally, the foam cover supplied ensures that the miniatures in the upper insert are also completely surrounded by foam. The privacy screen, character cards and personality passports, as well as the book of rules and the book of challenges can be placed on the lid or stored in the compartment at the front of the bag. The comfortable MAXI bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. You can store the rest of your accessories here. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap. This means that your four heroes and their monstrous opponents are safely stowed away, all your game material is neatly stored and your game is well protected on the way to the next round.
