### Product Description

Shadespire is no longer the magical metropolis it once was. Trapped in a world of noble souls and barbaric fiends, everyone here is just trying to escape damnation and the blood flows in the streets of the Mirrored City. And your warriors are right in the middle of it all. Your figures may not be made of mirror glass, but they should still be kept safe. Especially when transporting your warband, it can quickly happen that the figures bump into each other and paint flakes off or weapons snap off. This is not only annoying, but also avoidable. Our inserts made of chlorine- and acid-free foam ensure that your figures are well protected from abrasion and other external influences. We have specially designed the foam inserts so that each warband has its own foam insert. The compartments for the miniatures have been individually tailored to each figure. This ensures optimum safety even in the event of major shocks during transport. Other game accessories, such as power and mission cards, markers and dice, can be sorted into the compartments provided for this purpose, where they are clearly organised and readily available. Every gang is therefore immediately ready for battle. The high-quality bag has padded side panels and a reinforced base, so that game pieces and accessories are safe at all times, even when being transported by car or train. A sturdy strap also ensures better carrying comfort on the way to the next game with friends or the next tournament.
