## Product Description

The Myrmidon Manipel is one of the most powerful formations of all - there are hardly any opponents who can prevail against such a squad. Consisting of at least 2 Warlord Battle Titans and at least 1 Reaver Battle Titan, the Myrmidon Manipel impresses with its immense firepower.Off the field, however, the battle machines also like to show their fragile side. It is therefore advisable to store and transport the fragile miniatures as safely as possible. Our MAXI bag for the Myrmidon Manipel is ideal for this. The inlay for up to 3 Warlord Titans has a total of 6 customised compartments - 3 for the undersides and 3 for the tops of the figures. The huge battle machines are thus perfectly packed and protected against parts breakage. The insert for the Reaver Titans has 2 compartments in which 2 of the magnificent models can be stored when assembled. This means that you can store a complete Myrmidon Manipel in our set, regardless of how you assemble it. The set also includes a custom-fit insert for up to 4 Warhound Scouts. We also include two foam lids to provide optimum all-round protection for your miniatures. The comfortable MAXI bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are optimally protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Cards, game instructions and writing materials, for example, fit in here. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
