Product Description

The round must go into the square and your Subbuteo teams must go into our MAXI bag. Here the athletes will find a safe place to rest so that they are in top shape for the next match. The 10 foam inserts in the set each have 25 compartments. 20 of the 25 compartments in each insert are reserved for the outfield players of two teams. Two elongated compartments are tailored exactly to the goalkeepers and goalie sticks. You can store three match balls in three further, circular compartments. The fine-pored foam provides your figures with the best possible protection against damage - broken noses and meniscus tears are therefore practically impossible. Your game set-up will also be faster thanks to the newly created organisation - no more searching for figures, you always have your athletes in view. Of course, the inserts fit perfectly into the robust MAXI bag. The high-quality bag has padded sides and a reinforced base so that your figures are always safe, even when travelling by car or train. A sturdy strap also ensures better carrying comfort on the way to the next tournament. A matching foam lid completes the set. This ensures that the figures do not fall out of the inlays during transport.
