Our mission groups and organises all these components and keeps the Aldebaran's cargo hold tidy. LEVA-NORD consists of 11 trays that can be removed individually and placed anywhere on the gaming table. Tray 1: Holds the large legend cards. Tray 2: Holds the small cards. Tray 3: The creatures. Tray 4: The star shield creatures. Tray 5: Most of the game's tokens (portals, fountains, crests, stars, etc.) in 10 compartments. Tray 6: Additional and special figures and eternal fire. Tray 7: Square tiles and the ship figure. Tray 8: Snow tiles. Tray 9: Items such as barrels and magic weapons. Tray 10: The star shield items. Tray 11: A safe corner into which the four assembled star shield constructs fit. Once all the trays have been placed in the box, a gap remains between the trays into which the creature strips can be inserted. The hero and equipment boards are then placed in a recess, followed by the game board, ship board and instructions on top. The box lid closes flush. The box can easily be stored on edge.- No assembly required. All parts are ready for immediate use.- thermoplastic- no assembly required - ready to play- 3D printed in Germany.
