from **57,07 EUR**

Item no.: 377972
shipping weight: 0.80 kg
Manufacturer: Feldherr

Product Description

They have a monopoly on the research and development of the Imperium's weapons and advanced technology. As fragmented as the Adeptus Mechanicus may be within the organisation, they are united by this privilege, along with their fervent belief in the Machine God. Such an animated army of cyborg warriors, priests and god-machines represents a truly fearsome opponent for any of their enemies. With our MAXI bag including matching foam, you can take your army to the next battlefield unscathed. The foam insert for the Skorpius Dunerider / Skorpius Disintegrator has a large compartment that has been tailored precisely to the antigrav vehicle of the Adeptus Mechanicus. Whether armour or transporter - both Skorpius model variants arrive at the gaming table well protected with this insert. The two small, rectangular compartments are ideal for storing additional miniatures from your AdMech army or for optional components. The insert for the Dunecrawler has a large, round compartment for the exclusive model. This not only protects the fine, sensitive parts, such as the aerials or machine gun, from damage. The colours and decals of the finished miniature also remain intact. Two additional compartments offer you space for more miniatures. They are particularly suitable for storing the Kastelan Robots, for example. The HSCT060BO insert has 18 compartments and is particularly suitable for storing and transporting Skitarii. The elongated compartments offer enough space to safely store even the Rangers with Transuranic Akebuse. Of course, the inlays fit exactly into the robust MAXI bag. The bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your Mechanicus army is well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip on the front. Datacards and codex, for example, fit in here. The matching foam lid completes the set. You place this on top of the upper inserts so that nothing falls out during transport. Details - high quality, foam - Made in Germany - Chlorine-free and acid-free

Contents:

- 1 Feldherr MAXI bag
- 1 foam insert with 3 compartments for 1 Skorpius Dunerider / Skorpius Disintegrator and 2 other models (HSMEPP085BO)
