Product Description

To ensure that nothing happens to your army on the way to the next mission, you get the matching MAXI bag including Feldherr foam inserts to protect your miniatures. If your army expands, you are well equipped with this MAXI bag. There is still room for 17 more infantry units in your army. Each miniature in your collection has its own custom-fit compartment. This ensures that your models stay safely in place during transport. The soft foam not only protects the sensitive parts of your figures. The colours of painted miniatures are just as safe from abrasion and scratches. FSMEFX115BO offers a compartment tailored precisely to the figure for each of the three Plague Drones, in which the models are safely stored. The sensitive parts such as wings, plague trunks and the blades of the Plaguebearer are optimally protected from damage. The Feldherr-MAXI bag is made of particularly hard-wearing material. Padded side sections and a reinforced base ensure that the miniatures are also protected during transport by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
