### Product Description

With this Feldherr MAXI bag, you can transport your miniatures and game material from the "Zombicide: Green Horde" base game comfortably and well protected to the nearest zombie-infested labyrinth. Or to a game night with your friends. A compartment for every monster, whether it's an ugly lump of fat or a siege machine tribok. Each of your miniatures will find a suitable compartment in the 4 full-size foam inserts. Embedded in high-quality, soft foam, the sensitive parts of your figures are reliably protected from damage. The colours of the painted miniatures are just as safe from abrasion and scratches. You can store your rulebook, cards and game material in the full-size insert with the large compartment (FS0501031BO). Markers, playing cards and other accessories, as well as the six hero models, are stored in the compartments of the 55 mm high insert (FSFG055BO). The survivor boards are stored separately on the topper or in the outer pocket. Finally, the foam lid supplied ensures that your figures are securely packed and survive transport to the gaming table undamaged. The Feldherr MAXI bag is made of particularly hard-wearing material. Padded side sections and a reinforced base ensure that the miniatures are also protected during transport by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
