from **53,75 EUR**

Item no.: 378047  
 shipping weight: 0.30 kg  
 Manufacturer: Feldherr

### Product Description

With the Feldherr MAXI bag, you not only maintain the image of the noble Astartes, but also transport your Battle Patrol: Blood Angels neatly stowed away into battle. Once there, you can confidently indulge in bloodlust and tear the enemies of the Empire to shreds. Spread across one full-size and three half-size inserts, this bag neatly and securely stores all the miniatures of your Combat Patrol: Blood Angels. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This also protects the colours of the painted miniatures from abrasion and scratches. Your Impulsor is best stored in the high half-size foam insert. In addition to the large compartment for the Impulsor, you have four rectangular compartments that can hold additional Adeptus Astartes units on 32 mm bases. Place your Primaris Scriptor and the five Intercursors in the larger of the two remaining half-size inserts. You can use the remaining compartments for other miniatures such as Bladeguard Veterans or Eradicators. The last half-size foam insert is divided into ten compartments of different sizes. These are ideal for storing larger or wider Adeptus Astartes models neatly and securely. They are therefore ideal for your beefy aggressors and the five dynamic intercrossors / infiltrators. The included full-size foam insert is ideal for expanding your combat patrol. It is ideal for storing additional Astartes units on 32 or 40 mm bases. Finally, the included foam cover ensures that your war patrol is securely packed all round and survives transport to the gaming table undamaged. The Feldherr MAXI bag is made of particularly hard-wearing material. Padded side panels and a reinforced base ensure that the miniatures are well protected even when transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store the codex, booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
