### Product Description

The Szarekhan are back. And under the leadership of their Silent King, they are on their way back to the pinnacle of power. Of course, the Imperial forces are not long in coming. But the Necrons know a thing or two about waiting. On Vertigus - the final piece of the Silent King's plan - the Space Marines are already waiting. To ensure that your xenos troops are always ready for the destruction of the Imperial Crusaders, we have filled this bag with the appropriate inserts to protect your miniatures. Four half-size inserts and 1 full-size insert ensure that the Silent King's warriors are neatly and safely stowed away in this bag. The soft foam optimally protects the delicate figures from damage. Precisely fitting compartments for each individual model prevent the figures from sliding around or bumping into each other during transport. This also protects the colours of the painted Necron models from abrasion and scratches. The insert with 5 compartments (HSMEYG075BO) has a large compartment for the Kanoptech Reanimator. The Skorpekh Lord also has its own compartment here. The 7-compartment insert (HSLZ060BO) has suitable compartments for the Skorpekh Destructors, the Skorpekh Lord, the High Lord and the King's Guardian, as well as for the Plasmant. Cryptoknechts and Necron warriors will find a safe haven in the 25 compartments of the full-size insert FSLQ050BO. The Kanoptech scarab swarms can cavort on the HS035I012BO. Smaller warriors on 25 mm bases can also be accommodated here. Like you, we are probably confident that your Necron army will continue to grow. The HSMEFF050BO has room for more standard warriors. Finally, the included foam lid ensures that your figures are safely packed all around and survive transport to the gaming table undamaged. The Feldherr MAXI bag is made of particularly hard-wearing material. Padded side panels and a reinforced base ensure that the miniatures are well protected even when transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you can store the codex, booklets and other small items, for example. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also carry the bag comfortably as a shoulder bag thanks to the sturdy, detachable shoulder strap.
