Product Description

Keep your colour palette tidy! Store up to 128 colours from GamesWorkshop neatly and transport them safely. In the beginning, there were five to ten bottles on your painting table, but now your colour palette is starting to get confusing. So it's high time you tidied things up. And because you're often out and about, meeting up with friends to paint together, are you now looking for a mobile solution to store your paints compactly and transport them sensibly? Then this MAXI bag including Feldherr foam inserts is just the thing for you. Up to 128 12 ml, 18 ml or 24 ml Citadel paint pots can be neatly stored in the four full-size inserts. There is also space for models on 25 mm or 32 mm bases. Your assembled models are perfectly stored here and the parts you have just glued on are safe from damage. Even painted miniatures are protected from abrasion and scratches thanks to the soft foam. A matching foam lid completes the set and your colours and miniatures are stored neatly and ready to travel. The inserts fit exactly into the robust MAXI bag. This is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when travelling by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
