from **74,19 EUR**

Item no.: 378033
 shipping weight: 1.30 kg
 Manufacturer: Feldherr

Product Description

The conflict between the Separatist Alliance and the Galactic Republic has turned into open warfare. The galaxy is on fire and you must choose a side. But until you have decided, you can safely store your miniatures and accessories from the Fleet Starter Sets and the Starfighter Squadron expansion for both factions in this Feldherr MAXI PLUS bag. The bag contains individual foam inserts for your miniatures and an assortment box for tokens and game accessories. The Galactic Republic and the Separatist Alliance each get their own insert to store their large ships. The large compartment in each tray is customised for a Munifenz-class frigate or an Acclamator-class assault transporter. On the Separatist side, there are two further compartments for the two Hardcell-class space freighters. These are customised for one model each, including a support rod. In the Republic insert, you can store two Consular-class military cruisers in miniature-precise compartments. Both inserts have a large compartment for the ship bases. You also have space to store the holding fins. The ship cards and markers can also be stored in the trays if required. You can use the remaining compartments to store command and thrust wheels and other accessories. To store the droid fighter squadrons and the V-19 torrent squadrons from the starter set and the 8 miniatures from each of the Armada expansion packs "Separatist Starfighter Squadrons" and "Republic Starfighter Squadrons", you will find the matching compartments on the foam inserts, each with 12 identical compartments. Each of the 24 squadron miniatures including bases has its own compartment here. An insert with 9 compartments is included for 8 additional squadrons and cards, 8 for the squadrons and one card compartment for the playing cards. Surrounded by soft foam, the delicate parts of your miniatures are protected from damage. The colours of painted models are also reliably protected against scratches and abrasion. Two identical foam inserts and an assortment box are included in the package to ensure that the accessories are also properly stored. There is plenty of space here for sorting cards, dice, markers and other accessories. The assortment box has 5 elongated compartments. These can be further subdivided using the 12 dividers supplied. This allows you to divide up to 17 compartments for storing your game materials. When the dividers are not inserted, the longest compartment in the centre is 260 mm long x 46 mm wide x 35 mm deep. Finally, the foam lid supplied ensures that your fleet is securely packed all round and survives transport to the gaming table undamaged. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for rulebooks and other small items. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
