Product Description

The sisters of the Adepta Sororitas spread the faith with the bolter. If this is not enough to convert the unbelievers, they resort to the purifying fire of their flamethrowers. To support your inner fire, we have this Feldherr MAXI PLUS bag with matching foam inserts for you. This way you can spread the faith in the God-Emperor and always have your army with you. Six half-size foam inserts ensure that all the miniatures of your sisterhood are neatly stored. Precisely dimensioned compartments for each model prevent the figures from sliding around or bumping into each other during transport. This ensures that the weapons and fine decorations remain on the model. The soft foam also protects the colours of your painted figures from abrasion and scratches. The insert with seven compartments serves as a secure cage for the beautiful but bulky Seraphim or Zephyrim. The large compartment of the high insert is ideal for parking a battle tank such as the Exorcist. Thanks to their depth, the remaining four compartments can accommodate towering models such as the Imagifier or other Seraphim and Zephyrim. The tray with its 15 different compartments offers space for a wide range of models. Two Mortifiers can be stored in the two large compartments. More eye-catching character models with larger bases, such as Hospitaller or Dialogus, will find a quiet place to pray in the medium-sized compartments. The remaining compartments can be filled with figures on 32 mm bases, such as a troop of Repentia. You can store and transport up to ten models in the half-size foam insert with ten compartments. The compartments in two different sizes are ideal for standard Adepta Sororitas units. Or for units with standards and towering details. This makes the insert ideal for infantry units such as the Battle Sisters, Repentia Superior and the Battle Sister with Simulacrum. Divided into twelve uniform compartments, the foam insert is ideal for the safe storage of additional infantry units. The insert with ten compartments has space for standard units or expansive models such as a squad of Arco Flagellants. The foam lid supplied rounds things off. It ensures that your miniatures are packed securely all round. The comfortable Feldherr MAXI PLUS bag is made of particularly hard-wearing material. In addition, padded side panels and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. Here you have space for the codex and other small items. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap.
