Product Description

Ideal for storing and transporting tabletop and board game miniatures on a 40 mm base as well as small tanks and monsters. Are you looking for a way to transport your miniatures collection safely to your next game night? Feldherr declares the search is over! Our MAXI bag with matching foam inserts allows you to neatly store small tanks or monsters and up to 44 other models. The fine-pored foam protects your miniatures from damage in the best possible way - delicate parts are preserved, and the paint applied to painted models does not get scratched. The 60 mm high grid foam insert suitable for your small tanks and monsters is specially pre-perforated. Grid pins with a base area of 14 mm x 14 mm x 60 mm high can be removed individually from the insert. This allows you to configure the areas required for your vehicles yourself. Once you have punched out the compartments, remove the film from the grid foam insert and glue the foam base to the insert - this ensures that your vehicles do not fall out. The inserts fit exactly into the robust MAXI bag. This is made of particularly hard-wearing material. In addition, padded side sections and a reinforced base ensure that your miniatures are well protected from external influences, even when being transported by car or train. In addition to the large main compartment, the bag has a small compartment with a zip at the front. There is a rubberised, handy carrying handle on the top. If you prefer to have your hands free, you can also use the bag as a shoulder bag thanks to the hard-wearing, detachable shoulder strap. The matching foam lid completes the set. Place this on top of the stack of inserts to ensure that nothing falls out during transport.
